

Web Scraping Project Using Public Website Data

Objective

The objective of this project is to collect data from a publicly available website and organize it for analysis.

Website Used

<https://quotes.toscrape.com>

Data Collected

- Quotes
- Author Names

Tools Used

- Web Browser
- Microsoft Excel
- Microsoft Word

Analysis

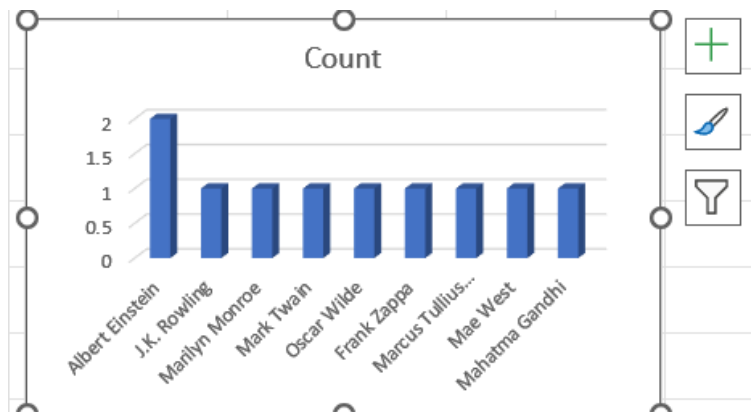

The collected data was organized in Excel. Author frequencies were calculated and visualized using a bar chart.

Observations

- Some authors appeared multiple times.
- Albert Einstein had the highest number of quotes.
- Data collection and organization were completed successfully.

Conclusion

This project demonstrated the process of gathering information from a website and preparing it for analysis and visualization.

Quote	Author	
The world as we have created it is a process of our thinking.	Albert Einstein	
It is our choices that show what we truly are.	J.K. Rowling	
Imperfection is beauty.	Marilyn Monroe	
Try not to
